By -

Guilford Publications, United States, 2009. Paperback. Condition: New. Language: English. Brand new Book. This book brings together prominent investigators to provide a comprehensive guide to doing life course research, including an "inside view" of how they designed and carried out influential longitudinal studies. Well-organized chapters describe the best and newest ways to:

- *Apply innovative statistical methods to measure dynamic processes that result in improvement, decline, or reversibility in economic fortune, stress, health, and criminality.
- *Explore the micro- and macro-level explanatory factors that shape individual trajectories, including genetic and environmental interactions, personal life history, interpersonal ties, and sociocultural institutions.
